Superdrug Mobile is commitment free

You can purchase a SIM online or instore, then pick your plan online and activate your SIM. Once you activate your SIM your service lasts for 1 calendar month, and you can choose whether to renew again next month; you're not tied in. You can change your plan anytime (free of charge) with no strings attached.

All our plans include unlimited UK calls and texts, and you can manage your account online at www.superdrugmobile.com/dashboard.

You can set your plan to automatically renew every month (so you don't have to), or you can log on and renew manually every month. We'll email you and remind you to do this.

Our SIMs are 5G ready, which means if you're in an area with 5G coverage and your device is 5G enabled, you'll be using the latest network capability!

**OUR SIM KEEPS
ON GIVING!**

What's included?

All our plans include UK unlimited calls and texts. When you pay for your plan these are valid for 1 calendar month.

Unlimited text messages include standard texts sent to other standard UK mobiles (starting 07) and texts within our roaming EU/EEA countries. Each message can accommodate 160 characters.

Multimedia messages (MMS) are not part of your inclusive text allowance, they are zero-rated – meaning you will not be charged for sending MMS messages. MMS can only be sent to other standard UK mobiles (starting 07). Superdrug Mobile reserves the right to suspend, modify or withdraw this, without notice, at any time.

Unlimited calls include standard UK landlines (starting 01, 02 and 03), freephone numbers (starting 0800 and 0808), standard UK mobiles (starting 07) and calls within our roaming EU/EEA countries. Voicemail can be accessed for no additional charge.

Unlimited calls and texts **exclude** calls to the Isle of Man and the Channel Islands.

Our plans

10GB, 30GB, 60GB, 100GB plans

Data on these plans lasts for a calendar month and any **unused** data then rolls over for another calendar month. This means if you don't use all your data one month, it rolls over to the next calendar month (if you renew your plan). Please note, this only applies to UK data.

Unlimited plan

If you're on the unlimited data plan, there are no hidden caps or limits when using your device within the UK. Unlimited data gives you all the access to the internet you need, so you can use our service to your heart's content.

Fair usage policies

Use of the Services for commercial, resale or fraudulent purposes isn't allowed under this Agreement, so we do reserve the right to monitor any unusual activity that may indicate that this is happening to identify and prevent such non-permitted use. **Superdrug Mobile is for personal use only.**

If you are travelling in the EU/EEA you will be subject to our fair use limit of 12GB each month. Additional data can be used once this limit is reached by **purchasing a cash add-on.**

Our add-ons

If you run out of data or want to make calls to 070, 084, 087, 09 or 118 numbers or other chargeable calls, you can buy an add-on. You can buy data and cash add-ons anytime via your Superdrug Mobile dashboard.

070/084/087/09/118 numbers

Calls to these numbers have an access charge of 25p per minute. A service charge will also apply and will vary depending on the Non-geographic Number (NGN) band number associated with it. You can find the band and charges associated to the number you wish to call on our NGN price guide, which can be found through our Terms and Conditions here: <https://www.superdrugmobile.com/register/terms>.

Data add-ons

Once you buy a data add-on it has no expiry date unless there's no activity at all on your account for 220 days, in which case Superdrug Mobile reserves the right to terminate or suspend your account. If you need additional data when roaming in the EU/EEA you will need to buy a cash add-on.

Data add-on price	Internet (UK)
£1	1GB
£5	5GB
£10	10GB

Cash add-ons

Some things fall outside what's included in your standard plan and you'll need to buy a cash add-on for these. The type of calls you can make with a cash add-on are numbers starting with 084 or 087, international calls and voice shortcodes. There are some services, e.g., premium numbers (starting 070, 084, 087, 09, 118 and shortcodes that you can use with your cash add-on). More information can be found on page 14.

Cash add-on amounts

£2

£5

£10

Once you buy a cash add-on it has no expiry date unless there's no activity at all on your account for 220 days, in which case Superdrug Mobile reserves the right to terminate or suspend your account. Cash add-ons are separate from the rest of your plan and cannot be used to buy data add-ons or your monthly plan.

Spend limits

We've applied limits to the amount you can spend on third party digital content and premium rate calls (including directory enquiries) and messages (including SMS shortcode messages). The spend limits are £40 per single payment transaction and the cumulative sum of £240 for payment transactions made over the course of a calendar month. These limits are set by law and we are not able to change them.

Roaming – using your mobile abroad

With Superdrug Mobile you can use your plan to call, text, and get online while travelling abroad.

Travelling in the EU

Calls and texts are unlimited. Data comes out of your monthly allowance up to our fair use limit of 12GB. **Your data will be capped at 12GB per month** when roaming in the EU/EEA. You can still use data; simply purchase a cash add-on from your dashboard anytime.

You need a cash add-on to make calls and texts from EU/EEA countries to the rest of the world.

Travelling outside the EU

You need a cash add-on for data, calls and texts for countries outside the EU/EEA. Purchase a cash add-on through your dashboard, then just pay as you go.

Roaming rates

The roaming rates you'll be charged for calls and messages while abroad will depend on which band the country you're travelling in falls into. See the table below to find out.

Roaming rates	Data (per MB)	Voice call calling back to the UK and within the same band (per min)	Voice call calling anywhere else in the world (per min)	Voice call (receive)	SMS (receive)	Sending an SMS	Sending an MMS picture/video	Video call (per min)	Satellite (per min)
Roaming Band 1	In Bundle (fair use limit of 12GB applies)	In Bundle	£0.10	In Bundle	In Bundle	In Bundle	In Bundle	£2.50	£12

International – using your mobile from the UK

To make calls and send messages to international numbers from the UK, you need a cash add-on. Buying a cash add-on is easy and something you can do at any time through your dashboard.

International rates

The international rates you'll be charged for calls and messages to international numbers will depend on which band the country you're trying to contact falls in. See the table below to find out:

International rates	Voice call (per minute)	SMS (per message)	MMS pic/vid (per message)	Cost to receive
International Band 1	£0.10	£0.06	£0.06	Free
International Band 2	£0.10	£0.20	£0.20	Free
International Band 3	£0.50	£0.20	£0.20	Free
International Band 4	£1.00	£0.20	£0.20	Free
International Band 5	£2.00	£0.20	£0.20	Free

Text relay calls to International numbers (via the short code 18001) will have a 20% discount to the rates above.

International Band 1	International Band 2		International Band 3				International Band 4	International Band 5

Emergency calls

We know that sometimes things happen, and you may need to call the emergency services. This means 999, 112, 111, 119, 101 and 105 are **free** to call when you need them.

Text relay

Text relay services are available, and these are charged at 20% less than the standard rate.

Premium, non-geographic and other numbers

Some calls and other services within the UK fall outside of what's included in your plan – for example, voting on TV shows, calling directory enquiries, digital content purchases and entering competitions.

Premium Rate Services can be:

- Voice calls to long numbers starting 070, 084, 087 & 090, where you're charged an access charge of 25p per minute (with a one-minute minimum charge) plus a service charge (set by the company you're calling – they'll tell you this).
- Voice or video calls to short numbers, which are known as shortcodes (four, five or six digits).
- Text and multimedia messages to and from shortcodes, which are charged at 10p (or more) per message.
- If you're using a messaging service, you may also be charged the standard rate for sending your message. Superdrug Mobile's standard rates are FREE for text messages (SMS), FREE for picture messages (MMS) and 80p for video messages (also called MMS).
- Calls to Directory services (starting 118), where you're charged an access charge of 25p per minute (with a one minute minimum charge) plus a service charge (set by the company you're calling – they'll tell you this).

For more information on Premium Rate Services, please refer to our code of practice:

<https://www.superdrugmobile.com/sales-portal-cms/public/Superdrug/sales-portal/asset/pdf-code-of-practice-for-premium-rate-services>

Non-geographic numbers

To check which band a number falls under, take a look at the Non-Geographic Numbers Price Guide, which can be found here: <https://www.superdrugmobile.com/sales-portal-cms/public/Superdrug/sales-portal/asset/pdf-price-guide-non-geo-numbers>

Contact us

We're here to help with anything you need. Contact us online at www.superdrugmobile.com and start a webchat; we're open 8am - 8pm every day (we're closed on Christmas Day).

You can also email us at: help@superdrugmobile.com.
